ACT Bootcamp for the March 21 ACT

Sat 3/11 and Sat 3/18

Class 101 college planner Winni van Gessel has written a book on the ACT. He will provide a course, based on his materials, in preparation for the MARCH ACT date at your local school. Students will learn from numerous drills, a wealth of 1-page handouts, and quick-feedback 1-page quizzes to assess skills and weaknesses.

We will provide **tips, hints, and test-taking skills**.

Familiarity with the test is key. Students should know what is being tested.

We provide specific **subject information**.

How to answer purpose questions, average questions, etc.

We will help students become proficient in **English grammar rules**.

From punctuation to pronouns, a quick overview helps to score more points.

We will help students become proficient in **math concepts**.

We will review geometry, averages, ratio questions, and more.

We will help students to be **more-precise readers**.

The text, the questions, and the answers: each one needs special attention.

We will help students tackle **the science section**.

It is not the content; it is scientific thinking and precision that counts.

We provide an overview of **what questions to expect** and what content really matters.

How many punctuation questions are there? How important is geometry?

We provide each **student with feedback** of how he or she can improve on her personal goals.

No matter what your score, we will help you improve in your areas of choice.

We provide **additional help for each student** in his or her area of weakness.

Our trendsheets give detailed feedback about what to study afterwards.

Our 1-page handouts and 1-page quizzes help to overcome weaknesses.

Over 19 years, more than 3000 students have participated in our course.

WEEK 1

Saturday,

English and Reading

3/11/17 9:00 AM - 1:00 PM

WEEK 2

Saturday,

Math and Science

3/18/17 9:00 AM - 1:00 PM
